

Change Notice No.	Notification date	Implementation date
CN/D/24/002	March 30, 2024	April 30, 2024

Subject : Improved product package label (with QR code) for **mdi** diagnostic products.

Scope : This change notification will affect the products with following catalog numbers:

- PGFXXXXXXXXXXXX
- PTRXXXXXXXXXXXX
- MCLXXXXXXXXXXXX
- BXXXXXXXXXXXX
- PXXXXXXXXXXXX
- TCXXXXXXXXXXXX
- MPXXXXXXXXXXXX
- OCXXXXXXXXXXXX
- ODXXXXXXXXXXXXX
- DCNXXXXXXXXXXXX
- DNNXXXXXXXXXXXX
- CXXXXXXXXXXXX
- LXXXXXXXXXXXX
- TMXXXXXXXXXXXX
- RAPXXXXXXXXXXXX
- RSGXXXXXXXXXXXX
- RPDXXXXXXXXXXXX

Background:

In keeping with our continuous efforts to improve our products, changes have been made in the product package label to provide robustness to the invoicing process during dispatch of **mdi** diagnostic products with catalog numbers as mentioned above in scope. This advance change notification is initiated to communicate this updated information to the end user.

The change will have no impact whatsoever on product performance or regulatory performance.

Need for Change:

Invoicing of **mdi** diagnostic products during dispatch is being done manually by entering the product details in the invoicing program. Although, dispatch personnel are well trained for invoicing and dispatch of the products, manual system for invoicing has probability for incorrect product details on invoice. To make the invoicing system more robust by reducing manual interventions, product package label of **mdi** diagnostic products with catalog numbers mentioned above has been modified with inclusion of a 'QR code' for automatic capture of product details during invoicing. All the product

details on invoice will now be captured automatically by scanning the product package label. No change has been done in any materials of production, performance parameters or any critical dimensions, nor is there any change in packaging materials. Only additional information in the form of 'QR code' is added.

How Does It Affect the User:

From practical point of view, this change will only affect the product package label of all types of **mdi** diagnostic products with catalog numbers mentioned above in scope. All performance specifications, product attributes, materials of production remain unchanged. All packaging and labeling attributes such as packaging box, pack size and content of product package label remain same as before, only additional information in the form of 'QR code' has been included in the label.
