

Reference : CHANGE NOTICE No.: CN/15/11

Subject : Modification/Improvement in product labeling of **mdi** 25mm Inline Filters and Inline Vent Filters

Scope : This change notification will affect the following products supplied pre-sterilized either with EO or Gamma Irradiation:

- **mdi** Polyethersulfone Membrane Inline Filter types IKL, IKS, IGK (all pore sizes)
- **mdi** Hydrophobic PTFE Membrane Inline Vent Filter type ITF (all pore sizes)
- **mdi** PVDF Membrane Inline Vent Filter types IVF (all pore sizes)
- **mdi** Microglassfiber Inline Filter type IGS (all pore sizes)
- **mdi** Nylon Membrane Inline Filter type INL (all pore size)

Background:

In our efforts to provide the user better products with improved identification and traceability, certain changes have been made in the product labeling of **mdi** Inline filters and Inline vent filters as mentioned above.

Need for Change:

To improve the identification and traceability of product under actual use.

How Does It Affect the User:

From a practical point of view the changes done will improve the identification and traceability under actual use. All performance specifications and product attributes remain unchanged.

- The product labeling of the products mentioned above will now contain the product lot number in addition to the other information e.g. Product type, pore size, expiry date etc.

Effective Date:

mdi Inline filters and Inline vent filters (as mentioned above) manufactured after September 15, 2015 will have said changes.
