

**Reference :** CHANGE NOTICE No. CP/13/07

**Subject :** Separate Identification of Serial number and Sterilization cycle number on Certificate of Quality and product label for filters

**Scope :** This change notification will affect the following products:

- **mdi** capsule filters (All types and pore sizes)
- **mdi** cartridge filters (All types and pore sizes)
- **mdi** Inline filters (All types and pore sizes)

**Background:**

In our efforts to provide the user products with more convenience and better identification, certain changes have been made in the lot number Identification system of above mentioned products.

**Need for Change:**

As above.

**How Does It Affect the User:**

From a practical point of view, this change only affects the lot number identification system. All performance specifications, product attributes and traceability remain unchanged.

- **Non sterile as well as Pre-sterilized filter** – Product serial number is now mentioned separately as “Sl. No.” along with product lot number.
- **Pre-Sterilized filter only** - Sterilization cycle number is now mentioned in a separate row as “Ster. No.”.

LOT NUMBER IDENTIFICATION SYSTEM			
	OLD	NEW	Description
Non sterile filters	Lot NO.: DT0413-099	Lot NO.: DT0413 Sl. No.: 099	DT0413 is product Lot No. 099 is product serial No.
Pre-sterilized filters	Lot NO.: DT0413-042-099	Lot NO.: DT0413 Sl. No.: 099 Ster. No.: 042	DT0413 is product Lot No. 099 is product serial No. 042 is Sterilization cycle No.

Certificate of quality (CoQ) and product labels for above mentioned product types will now have the said changes.

**Effective Date:**

**mdi** filters (as mentioned above) manufactured/shipped after November 1, 2013 will be with said changes.
