Subject : Improved product package label (with QR code) for mdi Quick Connectors

Scope : This change notification will affect the products with following catalog numbers: (# can be any alphabet or numeral):

- QCC#####
- QCS#####

Background:

In our efforts to provide robustness to the invoicing process during dispatch, certain changes have been done to product package label of **mdi** Quick Connectors with catalog numbers as mentioned above.

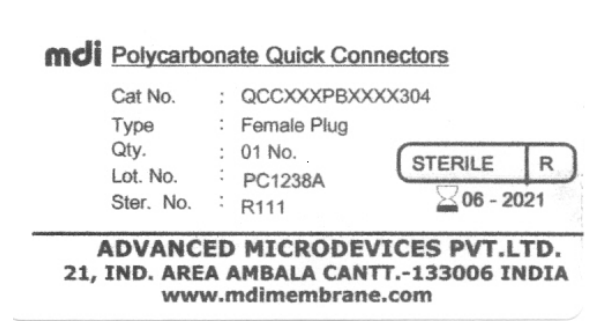

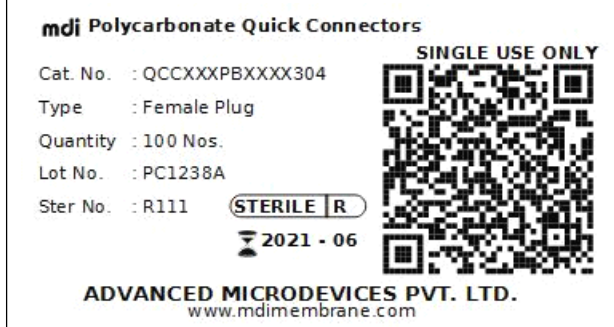

Need for Change:

Invoicing for **mdi** Quick Connectors during dispatch is being done manually by entering the product details in the invoicing program. Although, dispatch personnel are well trained for invoicing and dispatch of the products, manual system for invoicing has a probability for incorrect product details on invoice. To make the invoicing system more robust by reducing manual interventions, product package label of **mdi** Quick Connectors with catalog numbers as mentioned above has been re-structured with inclusion of a 'QR code' for automatic capturing of product details during invoicing. All the product details on invoice will now be captured automatically by scanning the product package label.

How Does It Affect the User:

From a practical point of view, this change only affects the product package label of **mdi** Quick Connectors. All performance specifications, product attributes, and traceability will remain unchanged. All packaging and labeling attributes such as packaging box, pack size and critical content of the product package label (e.g. catalog number, type, lot number etc.) will remain same as before, only additional information in the form of 'QR code' will be included in the label.

Change Notice No.	Notification date	Implementation date
CN/19/009	July 01, 2019	August 01, 2019

EXISTING PRODUCT PACKAGE LABEL	MODIFIED PRODUCT PACKAGE LABEL
	

Implementation of Change:

mdi Quick Connectors with catalog numbers as mentioned above, manufactured/packed after the implementation date will have the said changes. However, the available stock of mdi Quick Connectors having old product package label (without QR code) will be received by you till the stocks last.
