Subject: Improved product identification of mdi AseptiVac Vacuum Filters

Scope

: This change notification will affect the products with following catalog numbers: (# can be any alphabet or numeral):

- AN###############
- AK###############

### **Background:**

In our efforts to provide the user, products with better identification, certain improvements have been done in product identification of **mdi** AseptiVac Vacuum Filters with catalog numbers as mentioned above.

## **Need for Change:**

**mdi** AseptiVac Vacuum Filters with catalog numbers as mentioned above are identified with product related information such as product type, pore size, lot number etc. Currently, this product related information is available on product package and label pasted on product packaging box. It was observed that after opening the product package, it is difficult for the user to clearly identify the product. To make the product identification more user friendly, it has been decided to print product related information such as product type, pore size and lot number on **mdi** AseptiVac Vacuum Filters with catalog numbers as mentioned above using laser etching method. In addition to this, **mdi** logo will also be engraved on **mdi** AseptiVac Vacuum Filters with catalog numbers as mentioned above. No change has been done in any dimension or materials of construction or manufacturing process of **mdi** AseptiVac Vacuum Filters.

#### How Does It Affect the User:

From the user point of view, the changes done will improve the product identification under actual use. All performance specifications, product attributes, traceability and content of product related information will remain the same. Only the information will now be laser etched on **mdi** AseptiVac Vacuum Filters.
